ABOUT ME

I am a full-stack developer skilled in HTML, CSS, JavaScript, TypeScript, ReactJs, NextJs, NodeJs, ExpressJs, SailJs, MongoDB, MySQL and ChakraUI. I design great websites, web applications and APIs with competence. I work well in teams and can take charge in situations that warrant it.

EXPERIENCE

Brannium Technologies, Remote — Full Stack Developer

April 2022 - PRESENT

Project - HQI Store

URL: [HQI Store](#)

HQI Store is a multipurpose web app, it serves as an e-commerce store, and provides rental and logistics services while also providing real estate services and advertisements.

This project is currently under development by the company and is expected to handle real estate, logistics, e-commerce and rental services.

Front End Tech Stack

ReactJs ChakraUI Reduxtoolkit HTML CSS JavaScript

Kumba, Remote — Backend Developer

March 2020- March 2022

Project - MeetKumba

URL: [MeetKumba](#)

MeetKumba is both a web app and a mobile app providing service for restaurants across India and the United Kingdom, It provides restaurant owners with a fully customized mobile app to run their restaurant on, providing order, delivery and analytics on sales and so on.

Solid APIs built on NodeJs framework SailJs and StrapiJs power the app.
